SUMMARY

Final-year Computer Science and Engineering (IoT) student with a strong interest in software development, Java, SQL, and IoT-based solutions. Experienced in building academic and practical projects involving IoT, automation, computer vision, and intelligent systems. Seeking an entry-level opportunity in software development or IT to apply technical knowledge, contribute to real-world projects, and continuously learn and grow in a professional environment.

EDUCATION

B.E. Computer Science and Engineering (IoT)

Sethu Institute of Technology | 2023 – 2027 | CGPA: 8.18 / 10.00

Higher Secondary (Class XII)

76 / 100 | 2023

TECHNICAL SKILLS

Languages: Java (core), Python, C

Database: SQL, PL/SQL

Core CS: Data Structures, Object-Oriented Programming

PROJECTS

AI-Based Palmyrah Harvesting System — 2024

- Built a system to automatically identify mature palmyrah fruit bunches, applying object detection concepts to reduce manual inspection effort.

Crop Guard – Scent Barrier System — 2025

- Designed an IoT-based deterrent system using sensor logic to protect crops from animal intrusion without chemical or harmful methods.

CERTIFICATIONS

- Human Computer Interaction — Nptel.com
- Oracle AI Foundations Associate — Oracle University
- SQL Roadmap for Data Analysis — Codechef.com
- Problem Solving in Python — Codechef.com

INTERNSHIPS

- Project-Based Robotics & IoT Trainee — Zetsphere Technologies Private Limited, Madurai | Jan 2024
- Embedded Systems Intern — Tarcin Robotic LLP, KK Nagar, Madurai | Aug 2025
- Web Designing Intern — APEX I SYS, Coimbatore | Jul 2026 – Aug 2026

ACHIEVEMENTS

- First Prize, Paper Presentation — SBM College of Engineering and Technology
- Participant, International Conference on Emerging Computing and Intelligent Systems (ICECIS'2026)
